How to Ride

*Just follow these four easy steps
on the next two pages:*

**Step 1. Find your route on
the System Map.**

Step 2. Read the schedule.

Step 3. Choose the right fare.

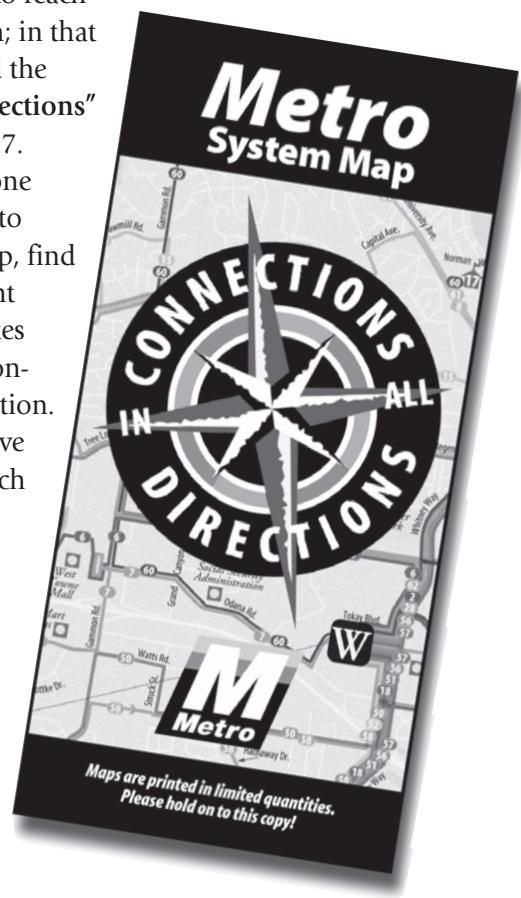

Step 4. Catch your bus!

Step 1. Find your route on the System Map

The Metro System Map shows all Metro routes. Be sure to look at both the Weekday and Supplemental School Day Service maps for weekday travel, and the Weekend & Holiday Map for travel on those days. Use the System Map to locate the route closest to your origin and destination point. You may find that you'll need to ride more than one route to reach your destination; in that case, please read the "Transfer Connections" section on page 7.

If more than one route is needed to complete the trip, find the transfer point where both routes meet for your connecting information.

Now that you've determined which route(s) you're going to ride, you'll need to refer to the appropriate schedule(s).

Maps are printed in limited quantities.
Please hold on to this copy!

Step 2. Read the Schedule

How to Read a Schedule.

Destination and Directional Symbols: Schedules and maps contain symbols for points of interest, popular destinations, accessibility, and transfer points (see page 3 of this booklet for an explanation of these symbols). Symbols appear on the map and above the appropriate time point on the schedule—indicating the direction the bus is traveling and the popular destinations and points of interest along the route.

Return Trip: Check the system map and schedule for your return trip. It may not be the same route, depending on the time of day you will be traveling.

The diagram illustrates how to read a bus schedule using a map and two sample schedules.

Map Labels:

- Route Number:** 28
- Time Point:** Find the time point number on the map that precedes your departure location—then look up that time point number on the schedule. All time point numbers correspond to a time point on the schedule below.
- Vias:** Some buses operate via different streets to/from their destination. In this case trips on Route 28 operate either via Johnson & Fordem or via Sherman to the North Transfer Point. Be sure to follow the timepoints along the schedule and the map to determine if you will be affected by a route via.

Make sure you are waiting at the correct location and your stop is appropriate for the direction the bus is traveling.

Wave to the driver when you see your bus approaching.

Never run after a departing bus. For your safety, buses will not load passengers after they pull away from a stop or transfer point loading area.

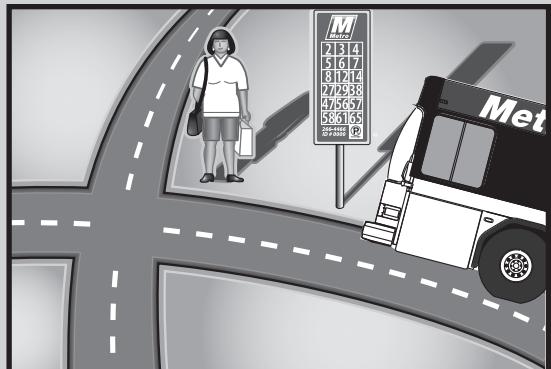

Smoking is *not* allowed inside bus shelters.

Where to Wait!

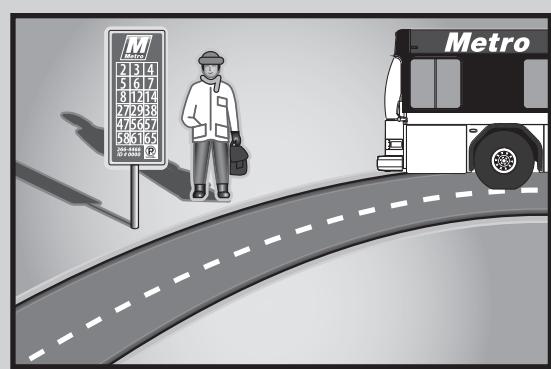

Wait at Sign!

Bus stop is past the intersection—wait at sign.

Wait at Corner!

Bus stop is before the intersection—wait at corner.
(The back of these signs direct you to board the bus at corner.)

Wait at Sign!

Destination Signs

To ensure you're boarding the correct bus, check the destination sign above the windshield. The destination sign will indicate the route number and destination of a bus. Rack-N-Roll

Bring your bike on your next commute. All routes listed in this *Ride Guide* are equipped with bike racks.

- As the bus approaches have your bike ready to load; remove all pumps, water bottles and loose items that could fall off.
- Always approach the bus from the curb side.
- Tell the bus driver that you are loading a bike.

Loading Your Bike

1. Squeeze handle and pull down to release folded bike rack.

2. Lift bike onto the rack, putting the front and rear wheels in the marked slots. Please load the rack nearest the bus first. *The front wheel of the bike closest to the bus should face curbside. The front wheel of the second bicycle must face the bus driver's side.* You can load/unload rack nearest the bus without unloading the bike in front.

3. Raise the support arm, as far up on the wheel as you can, making sure it is resting on your front tire, not on the fender or frame.

Unloading Your Bike

- Tell the driver you need to unload your bike.
- Move the support arm down and lift out your bike.
- Please fold up the rack if it is empty.

Rules of the Rack

- a. For safety reasons, the driver cannot get off the bus to assist you.
- b. Bike racks are first come, first served. Each bus can carry two bikes. *The front wheel of the bike closest to the bus should face curbside. The front wheel of the second bicycle must face the bus driver's side.*
- c. There is no additional fare for using the bike rack.
- d. Children 10 and younger must be accompanied by an adult to load and unload bikes.
- e. All people using the rack must be strong enough to load and unload their bike.

Tell Your Friends! Go Green – Ride Metro

Recent studies show one of the most significant actions people can take to reduce their carbon footprint is to reduce their driving. Riding the bus helps to create a healthier environment by reducing smog-producing pollutants and greenhouses gases.

- Public transportation produces nearly 50% less carbon dioxide (CO₂) and nitrogen oxide (NO_x), per passenger mile, as private vehicles.*
- Public transportation use in the U.S. saves 1.4 billion gallons of gasoline. This represents almost 4 million gallons of gasoline per day.*

Metro is a Part of the Solution

Hybrid Buses

Metro now has 19 hybrid buses in its fleet!

What is a hybrid bus? Hybrid bus motors act like generators. Through a process called "regenerative braking", energy created while a bus slows or stops is converted to stored electric energy. Forty percent of the energy to accelerate the bus is actually energy saved during the braking process.

Metro currently estimates that hybrid buses get 20-30% better gas mileage than regular diesel buses and reduce exhaust emissions by 90%.

Ultra-Low Sulfur Fuel

Metro's entire fleet operates on ultra-low sulfur diesel fuel that reduces hydrocarbon emissions by 75%.

Green Power

Metro Transit uses 37% Green Power, which is a combination of windpower and other environmentally-friendly energy-producing sources, to power its administration and maintenance facility.
